

Synergy Makes Red Cross Donation to Help New Zealand Earthquake Victims

La Jolla, CA — February 28, 2011 — Synergy today announced a donation of \$1000 to the Red Cross to help support those affected by the February 22 earthquake in New Zealand. The 6.3-magnitude quake caused massive damage to New Zealand's second largest city, Christchurch. The quake caused significant loss of life and injury, as well as severely damaging buildings, infrastructure and services.

Red Cross is there providing essential support and humanitarian assistance where needed. Red Cross has over 170 trained staff and volunteers from all over New Zealand currently working in Christchurch to support the relief efforts.

"We have customers based in Christchurch who were affected by the earthquake. Our thoughts are with them and we wanted to offer what assistance we can to the families and those coping with this disaster," said Douglas Arthur, President, Synergy. "Synergy's donation will be used towards the response efforts to the disaster and will help meet the needs of those people affected by the earthquake."

About Synergy

Founded in 1997, Synergy works to solve the needs of globally distributed enterprise-sized businesses. Specializing in Microsoft SharePoint Products and Technologies, Synergy helps global organizations overcome the challenges they face in sharing information around the world. Synergy's flagship product, Replicator, is a web-based platform used to synchronize and manage business intelligence in real-time across a wide area SharePoint server environment. Replicator ensures uninterrupted access to SharePoint content, enhancing employee productivity and efficiency, and improving branch office performance globally. Synergy is a Microsoft Gold ISV. www.synergy.com
