

CORPORATE OVERVIEW

SYNERGY provides products and solutions for Collaborative Knowledge Management, Content Management and Enterprise Portal systems. We specialize in Microsoft® SharePoint™ and other technologies. The corporation was founded with the idea that creativity, experience and technological expertise will result in the development of superior systems and satisfied customers.

■ **PRODUCTS.** We offer supported add-on products to SharePoint™ Portal Server 2003 and Windows SharePoint™ Services. We enable additional features that help you rapidly deploy business solutions and that provide you a cost-effective alternative to custom development.

■ **SOLUTIONS.** We provide enhanced modules and application accelerators for site creation and navigation, document loading, e-mail integration, and replication.

We have assembled these to solve business needs like yours— from implementing high-ROI business processes at major banks to providing software modules that save individual companies money in their own CKM environments.

CASE STUDY

INCREASED PRODUCTIVITY

Bulk Loader, facilitated the timely and accurate loading of data and documents to the appropriate locations in the hierarchy. “Without Bulk Loader,” said Timothy M. Opsitnick, Senior Partner and General Counsel, “it would’ve been a very time consuming and error-prone process to manually load the coded data and documents into the various locations within the hierarchy.” Bulk Loader even helped Jurlnno load the same document to several locations in the hierarchy. “Now,” continued Opsitnick, “key personnel have access to the right information, in the right places.”
